

# Introduction

Public Health at Surrey County Council are going to be running an exciting project across the county – it will be based on the theme of ‘Hope’ and is for anyone who wants to get involved.

We would like to find out what kind of activities you’d be interested in, and we’ll then put these ideas together to create inspiring experiences where you can express what HOPE means to you, whilst connecting with others, and maybe trying something new.

Where questions ask about creative activities, there will be no need to have any prior experience of anything you’d like to try – everyone will be included and supported, whatever your ability level. Once we know what people would like to do, we’ll be organising some events and workshops, in person or online, that will be free to attend with specialist practitioners to help and guide you. The activities will be run in line with covid guidelines at the time. Your responses will be used to design and deliver workshops and activities in accessible locations. There will be exhibitions as a second stage of the project, and if you attend any workshops, you'll be able to decide at a later point whether you'd like to display your work during this second phase.

Your name and contact details will be used only for the purpose/s stated in the survey, if you choose to share them.

Information will be kept confidential. If you wish to know how your personal information will be used, visit
