

Appendix 1: Alignment and response to the NHS Long Term Plan

Alignment with other system plans

This 10 year health & wellbeing strategy identifies the priorities for the Surrey-wide system, focusing on the wider determinants of health to create long-term and generational change for the population. As a result it is the intersection between those priorities of Surrey County Council, and those of the health system. There are also priorities which are solely those of the County Council or those of the health system, based on their nature - for example clinical pathways or transport links. This relationship is displayed below.

Alignment with the NHS Long Term Plan

Our strategic priorities are aligned with the themes set out in the NHS Long Term Plan as shown below. The ICS/STPs responses to the NHS Long Term Plan will build on these priorities.

NHS long term plan

- ✓ Boost out of hospital care and dissolve the divide between primary and community health services
- ✓ Reduce pressure on emergency hospital services
- ✓ People will get more control over their own health and more personalised care when they need it
- ✓ Increased focus on population health
- ✓ More NHS action on prevention
- ✓ Stronger NHS action on health inequalities
- ✓ A strong start in life for children and young people
- ✓ Better care for major health conditions
- ✓ Workforce
- ✓ Digitally enabled care will go mainstream across the NHS

Surrey-wide Strategic Plan Priorities

Helping people in Surrey to lead healthy lives

- 1.1 Working to reduce obesity and excess weight rates
- 1.2 Supporting prevention and treatment of increasing risk and harmful drinking
- 1.3 Ensuring that everyone lives in good and appropriate housing
- 1.4 Promoting prevention to decrease incidence of serious conditions and diseases
- 1.5 Helping people to live independently for as long as possible and to die well

Supporting the emotional wellbeing of people in Surrey

- 2.1 Enabling children, young people, adults and elderly with mental health issues to access the right help and resources
- 2.2 Supporting the emotional wellbeing of mothers throughout and after their pregnancy
- 2.3 Preventing isolation and enabling support for those who do feel isolated

Supporting people in Surrey to fulfil their potential

- 3.1 Enabling children to develop skills for life
- 3.2 Enabling adults to succeed professionally

General Population

Young and Adult
Carers in Surrey

Deprived or
vulnerable people

Children with SEND and
Adults with Learning
Disabilities and/ or Autism

People who need support to
live with illness, live
independently, or to die well

Response to the NHS Long Term Plan

Further work is being carried out by each of the three health and care partnerships across Surrey to respond to the NHS Long Term Plan.

Each of the three – Surrey Heartlands ICS, Frimley Health ICS and East Surrey and Sussex STP – will be asked to provide their own response.

As the Surrey Heartlands ICS is entirely within the county of Surrey, the Surrey Health and Wellbeing Strategy will form the core of its response to the NHS Long-Term plan with additional information which is currently being developed – **this additional information will be added to the appendix once finalised.**

The Strategy will also form part of the separate submissions made by both East Surrey and Sussex STP and Frimley ICS in their responses to the NHS Long-Term plan.
