1. Introduction

Adults, Wellbeing and Health Partnerships (AWHP) is a directorate of Surrey County Council which includes adult social care. AWHP is committed to the council's overarching ambition to help everyone in Surrey benefit from all the opportunities on offer in our county, and to ensure that no one is left behind, now, and in the future. The council is committed to helping those most in need of support and improving quality of life for everyone.

AWHP supports local people who draw on care and support by promoting independence, personal choice and control. This extends to support to travel, to enable people to be as mobile and independent as possible to help them achieve their personal outcomes and aspirations in their daily lives.

This document sets out the policy for the provision of support with travel by AWHP within its powers and duties under the Care Act 2014.

This policy provides a framework and best practice for professionals to implement when supporting people.

2. Purpose

2.1 The policy document sets out how residents are supported by AWHP and how they may be supported to get to a service/activity/occupation that meets their assessed eligible need under the Care Act 2014. For further information, please visit:

www.surreycc.gov.uk/adultsocialcareassessments

Adults Travel Policy

2.2 The policy document aims to inform residents of Surrey. It will ensure that the residents of Surrey who use AWHP services and their carers have access to the policy that is used for decisions made regarding travel.

3. Statutory duties of the local authority

3.1 The council has a statutory duty under the Care Act 2014 to meet a person's eligible needs. If attendance at a day service or community activity/occupation meets the individual's assessed eligible need, this does not automatically mean that transport to this service will be included.

3.2 If a person cannot travel to the service/activity/occupation independently or with support from their carer or family member, then the council will consider the most appropriate best value option that can support the individual to travel to the service that meets their assessed needs and supports their independence.

4. Legislation and policy context

For further information about any of the legislation mentioned in this section, please visit: www.legislation.gov.uk

The Care Act 2014

The Care Act states that the local authority has a duty to prevent, postpone and minimise developing needs for care and support or delay people deteriorating such that they would need ongoing care and support. All assessments must be person-centred and based on promoting independence and overall wellbeing. People should be empowered to be in control of their

Adults Travel Policy

own services (through personal budgets and direct payments where eligible) and supported by relevant and up to date information and advice that will enable individuals and carers to make the choices that are right for them.

The Act states that, 'Local authorities should consider the adult's ability to get around in the community safely and consider their ability to use such facilities as public transport, shops or recreational facilities when considering the impact on their wellbeing'.

Mental Capacity Act 2005

The Mental Capacity Act (MCA) is designed to protect and empower people who may lack the mental capacity to make their own decisions about their care and support. Every adult has the right to make their own decisions wherever possible.

The Equality Act 2010

The Equality Act provides protection for people with protected characteristics against all types of discrimination.

Taxis and Private Hire Vehicles Act 2022

This Taxis and Private Hire Vehicles Act 2022 legislation sets out the specific responsibilities taxis and private hire have with respect to disabled customers and ensures they will have reasonable mobility assistance without being charged extra.

Surrey County Council Policies

The following policies add further context to the Adult Travel Policy.

- Surrey County Council Adult Social Care Vision: www.surreycc.gov.uk/adultsocialcarestrategies

Adults Travel Policy

- Active travel and personal mobility policy: www.surreycc.gov.uk/activetravelpolicy
- The Joint Strategic Needs Assessment (JSNA) is an assessment of the current and future health and social care needs of the population of Surrey. For further information, please visit: www.surreyi.gov.uk/jsna

5. Scope

5.1 In scope

This affects all adults aged 18 and over who have an assessed eligible need under the Care Act 2014 and require support to travel to the activity that meets their eligible need.

5.2 Not in scope

People who live in or travel to and from residential or nursing homes are not within the scope of this policy.

Health appointments are not within scope of the policy. (For the avoidance of doubt, the council shall not fund or pay for any health-related services or therapy services as such services that are funded by the NHS.) People accessing hospital visits may be able to claim a refund of reasonable travel costs under the Healthcare Travel Costs Scheme, or people may be eligible for non-emergency patient transport. For further information, please visit: www.nhs.uk

Eligibility for transport assistance for young people within the age group of 18-25 with or without an Education, Health and Care Plan (EHCP) to attend an education placement is covered by the post 16 transport policy. For further information, please visit: www.surreycc.gov.uk/post16travelassistancepolicy

6. The policy

- 6.1 The Travel Policy aims to promote people's independence, enabling them to connect with their communities and promote an active lifestyle.
- 6.2 We will support people to learn, or re-learn, the skills to be independent.
- 6.3 If a person has difficulty in getting to a destination or finding the support to do so, the council will help them access the most appropriate travel option available. This includes community transport, public transport, voluntary transport schemes, technology-enabled support and any other travel support that may be available in the local area.
- 6.4 Surrey County Council will fund or arrange transport if it is the only reasonable way of ensuring a person can safely get to the service/activity/occupation that meets their assessed eligible need. If a person can get to a destination themselves or source the support to achieve this, there will be an expectation that they will do so.
- 6.5 If an individual has been assessed as requiring travel assistance to enable them to travel to a service/activity/occupation that meets their eligible need, short-term travel training, technology-enabled support, a personal assistant, a support worker, support from the individual's family or the voluntary sector will be considered in the first instance.
- 6.6 Other forms of travel support will be considered if the above is not available or will not enable the person to travel to a service/activity/occupation that meets their eligible need.

Adults Travel Policy

This could be funded by a direct payment or procured by the council.

6.7 There is an expectation that family/carers will pay for any costs incurred to visit the person that is being supported by AWHP and has been placed in a service located in Surrey or out of the county of Surrey.

7. Aims and underpinning principles of the policy

7.1 Be person-centred

Support plans reflect the way that people wish to live their life, pursue their interests, and achieve their aspirations. The client is supported to identify outcomes for the coming 12 months and the support needed to achieve them. If assessment shows that travel assistance is required, the form it takes will reflect the skills and abilities of the individual.

7.2 Promote independence through developing skills and the use of technology-enabled support

Local authorities have a duty to support people to be as independent as possible. People who use AWHP services will be supported to develop skills through various approaches that support an individual's strengths. This may be in the form of travel training or supporting a person to use technology that can support journey planning and travel. See Appendix 1 for definitions.

7.3 Promote choice and control

To broaden the choices available to people that are required to travel to a service that meets their eligible need by ensuring they have the right information at the right time. This information could include details of community transport.

7.4 Support the wellbeing of individuals and their carers

The local authority has a responsibility to promote individuals' and their carers' wellbeing which includes people's ability to have control over their everyday lives. This policy supports wellbeing by ensuring that assessors and decision makers take a strength-based approach when considering travel options.

7.5 Support people to be part of their local community

It is Surrey County Council's AWHP vision that people are connected to their local communities. The policy supports this vision with the expectation that people attend services/activities/occupations that meet their needs that are closest to their home.

7.6 Promote Surrey County Council values

Surrey County Council's Values can be viewed online. For further information, please visit:
www.surreycc.gov.uk/vision2030

7.7 Support value for money and better outcomes

The council has a duty to protect the public funds it administers, but still ensure the best outcomes for its residents. The aim of the policy is to ensure that people's assessed needs can be met by using the most appropriate best value method of travel for the individual.

7.8 Promote sustainable and green methods of travel

Surrey County Council is committed to delivering on a net carbon ambition by 2050 with reduction targets against 2019 levels of 46% by 2025, 67% by 2030, and 80% by 2035. This policy supports this ambition as it ensures that the individual and assessor explore various forms of travel and support methods before a taxi may be considered.

8. Principles behind consideration for travel support

The assessment of need for travel support provision will be an element of someone's care needs assessment, i.e. no service will carry an automatic entitlement to travel support. (See Appendix 1 for definitions of travel support).

8.1 If the person has a family member or friend who helps with their care, the council will involve them in the assessment and support planning process, and they will be offered a carer's needs assessment.

8.2 If the individual has a Motability vehicle there is an expectation that the Motability vehicle will be used to meet

Adults Travel Policy

the individual's transport needs. Where this is not possible the reasons behind this will be explored and a decision will be made.

8.3 Part of the adult social care needs assessment process will consider what support, if any, is needed. There may be more than one solution or option available and so each journey needs to be considered separately, as part of a person's adult social care support plan. The assessor will complete a travel risk assessment if appropriate.

8.4 The use of direct payments will be explored as part of an individual's support planning.

8.5 If transport assistance is provided by the council this will be kept under regular review and may be subject to change. This is because individuals may develop more independence and achieve outcome goals which means that other travel options may be available to them. It is the ambition of the council to support people's independence and to enable people to connect and stay connected to their local community.

8.6 The time that a person will be expected to travel in a vehicle will be determined on an individual basis.

8.7 If a person has been offered a travel solution, but this has been declined by the individual, the council may not pay the individual's preferred choice of transport.

9. Proximity

9.1 The council has a duty to ensure best value for money. Where a person is eligible, transport assistance will only be

Adults Travel Policy

provided to the closest available service that meets their eligible needs.

- 9.2 In line with the council's Community Vision for Surrey in 2030, and with the Care Act 2014, everyone will be supported to be part of their community; we will therefore offer the closest available service/activity/occupation that meets their eligible need. If the individual chooses a different option that is further away from their home, the council may not meet the extra travel cost.
- 9.3 Depending on the client's location, the closest appropriate service may be in a neighbouring county.
- 9.4 The council will not pay for the cost of travel for carers to visit the supported independent living residence, residential college, or university in which the person accessing services lives, unless there is agreement from the decision-maker. Travel to residential or nursing homes is covered under section 5.2 of this policy.

10. Transport for young adults transitioning from children's services

- 10.1 In supporting younger adults along their pathway to adulthood, determining the best way to support the individual around travel support options and outcomes will be addressed via support planning with an AWHP care practitioner.
- 10.2 This support planning will consider how best to promote independence and inclusion and not increase the young person's dependence on others. Support planning will not focus on people's deficits but will focus on individuals'

Adults Travel Policy

strengths (including personal strengths and social/community networks).

10.3 Travel assistance for young people aged 18-25 who have an Education, Health and Care Plan (EHCP) is outlined in the post 16 transport policy. For further information, please visit:

<https://www.surreycc.gov.uk/post16travelassistancepolicy>

11. Shared taxis

11.1 If appropriate, the assessor or decision-maker will explore with the individual and service provider if it is possible for the individual to share a taxi that is taking people who are being supported through AWHP, to the same service/activity/occupation.

12. Principles of charging for transport

12.1 Transport is a chargeable service, which is subject to a financial assessment. The financial assessment will look at how much, if anything, a person is required to pay and will be carried out in accordance with the council's Charging policy for Adult Social Care services is available online. For further information, please visit:

www.surreycc.gov.uk/adultcarechargingpolicy

13. Mobility Allowance and Motability Scheme

13.1 Family members should not claim priority over the use of a person's Motability vehicles as set out in the scheme's rules.

Adults Travel Policy

- 13.2 If the allowance is being used to access other essential services, or the vehicle cannot be used due to a lack of licensed driver, alternatives shall be explored such as travel training, using the voluntary sector, public and community transport.
- 13.3 People will not normally be eligible for assisted travel if they have a Motability vehicle that they can drive themselves. Where a person uses their own vehicle or a Motability vehicle, petrol costs or other expenses will not usually be considered by the council.
- 13.4 People will not normally be eligible for assisted travel if an individual has a Motability vehicle and they are not the driver, and it is considered reasonable for the person's family, friend, or PA to help them travel to the service/activity/occupation. The cost of fuel or other expenses will not normally be met by the council.
- 13.5 On occasion the individual or carer may not be able to drive the Motability vehicle to the service/activity/occupation that meets the persons need, the assessor will then discuss further options with them. During the adult social care assessment procedure, the carer would also have received a carers assessment.
- 13.6 If the Motability vehicle is used by a carer to access their own activities that do not benefit the individual for whom the care is intended for, and this is the reason why the carer cannot drive the individual, then the Motability vehicle may not be being used for its intended purpose.

14. Appeals/complaints process

It is the aim of AWHP to ensure that all decisions are made within the parameters of the legal policy that we work within. We will always aim to deliver the best possible service, but sometimes things go wrong, or we may fail to meet your expectations. Making a complaint does not mean that you will receive less help from us in future or that your complaint will cause difficulties for you. We can learn a lot from complaints, so we welcome your feedback.

Information about how to complain about Adult Social Care is available online by visiting www.surreycc.gov.uk/adultsfeedback You can also contact the person or team that delivers the service you wish to complain about.

Appendices

Appendix 1: Definitions

Travelling My Way

This is a programme that will support an individual to travel independently to the service/activity/occupation that meets their assessed eligible need. This may be walking, buses, trains, cycling (bikeability training) or a combination of these. Learning these skills may also benefit an individual's life and enable them to independently access their local community when they choose to do so.

Technology-enabled care and support

The use of technology to support an individual with journey planning and personal coping methods for distress and anxiety. Depending on the tech. package used, families and carers may also be able to track the individual's journey with their authorisation which can further give assurances to the carer and person receiving adult social care support.

Community transport

This is transport that is provided by district and boroughs and varies across the county. People may be able to use their bus passes.

For further details, please visit:

- www.surreycc.gov.uk/dialaride
- www.connecttosupportsurrey.org.uk/help-with-travel

Volunteer car schemes

These are transport schemes run by volunteers in the community and their criteria varies across the county. All these schemes can be found on Connect to Support Surrey which is available online:

www.connecttosupportsurrey.org.uk/voluntarycarschemes

Direct payments

Direct payments can be used by the individual to source travel or transport themselves using the sum agreed in the persons support plan. Further information can be found online:

www.surreycc.gov.uk/directpayments

Motability vehicles

An individual who receives the higher rate mobility part of Personal Independent Payment (PIP) /Disability Living Allowance (DLA), Armed Forces Independence Payment (AFIP) or War Pensioners Mobility supplement may choose to join the Motability Scheme. The individual must have 12 months left on their allowance. Individuals can exchange their qualifying mobility allowance for a new car, Wheelchair Accessible Vehicle (WAV), scooter or powered wheelchair.

There are two levels of the mobility component of PIP:

- Lower rate mobility component
- Higher rate mobility component

The current rates of PIP can be found online. For further information, please visit: www.gov.uk/pip/how-much-youll-get

If a person has been awarded the higher rate mobility component of PIP/DLA or the Armed Forces Independence

Adults Travel Policy

Payment (AFIP) or War Pensioners Mobility supplement they can choose to have a Motability car or vehicle. The individual must have 12 months left on their allowance and may choose to lease a vehicle, electric scooter or a powered wheelchair.

If an individual/appointee chooses to lease a car through the Motability Scheme, the scheme states that 'your vehicle needs to be used by the disabled customer or for their benefit'.

Taxis

Taxis are sometimes procured by Surrey County Council if a person has been assessed as requiring travel/transport support. Regular taxis can be paid for via a direct payment if this has been agreed on their support plan or procured by the council via the Surrey Schools Transport Assessment Team (SSTAT). If appropriate and people are travelling to the same location and live near to each other, sharing a taxi may be considered.

Day service transport

Day services may offer transport to their service which could be paid for by adult social care if there is an eligible need.

Surrey Connect: On Demand Bus Service

This is a digital on demand bus service that can be booked online known as a Surrey Connect Digital Demand Responsive Transport solution, that is available in Surrey. It is a safe and reliable bus sharing service that will connect you to your local community. This is available in Mole Valley, Cranleigh, Farnham, Longcross, North & West Guildford and Tandridge. For further information, please visit: www.surreyconnect.org.uk/search

Appendix 2: Additional information

Bus passes

You may be eligible for a free bus pass if you're a Surrey resident with an eligible disability or you are a Surrey resident who is 66 or older.

A bus pass can be applied for online or by appointment in any participating Surrey library.

Bus passes are valid from 9:30am until 11:30pm Monday to Friday and anytime at the weekend and bank holidays. Some bus companies offer a concessionary rate to bus pass holders before 9:30am; this will have to be checked on the bus providers' website for the most up-to-date information.

If the person requires support to access the bus, you may be eligible for a companion pass. This pass entitles you and your companion to free travel within Surrey. If you travel outside of Surrey your companion may be asked to pay. To qualify for a Companion Permit (identified by a +C on your pass), you will need to provide a letter from either social care services, Sight for Surrey or a medical professional involved in your care, stating that you require assistance to travel. Alternatively, please supply a copy of your PIP with 12 points for the "Planning and Following a Journey" activity.

Further information about Surrey bus passes is available online by visiting: www.surreycc.gov.uk/freebuspass

Alternatively, you can contact Surrey County Council as follows:

Adults Travel Policy

- **Availability:** 9am to 5pm, Monday to Friday
- **Telephone:** 0300 200 1005
- **Textphone (via Relay UK):** 18001 0300 200 1005
- **Text (SMS):** 07527 182 861 (for the deaf or hard of hearing)
- **British Sign Language:** www.surreycc.gov.uk/bsl
- **Email:** freebuspass@surreycc.gov.uk

Buses

If you are aged between 18-20 you may be eligible for a Surrey Link card. This card gives you 50% off the adult fare for any journey starting and ending in Surrey. For further information, please visit: www.surreycc.gov.uk/surreylink

Blue Badge

People who receive PIP and receive 8 points OR MORE in the 'moving around' descriptor or those people who receive 10 PIP points in the 'planning and following a journey' descriptor and the applicant cannot undertake any journey because it would cause overwhelming mental distress are automatically entitled to a Blue Badge. An application will still have to be completed. The council website has more information on the Blue Badge scheme, eligibility criteria and how to use your blue badge and includes a video showing how to make your application. For further information, please visit: www.surreycc.gov.uk/bluebadges

Hidden disabilities

If people have a hidden disability, there are several different cards that are universally recognised by organisations including bus providers that can be used to indicate to the driver that the person has a hidden disability.

Sunflower lanyard

If you have a sensory loss, a physical disability that is not obvious, autism, a learning disability, anxiety or any other mental health condition, you can apply for the sunflower lanyard. For further information, please visit:

<https://hdsunflower.com/uk>

ARRIVA Journey Assistance Card

These can be downloaded and printed. The Arriva Journey Assistance card can be used to indicate that a person has a disability and/or what type of disability or can be used to indicate where a person may want to alight the bus. For further information, please visit:

www.arrivabus.co.uk/help/customers-with-disabilities

Helping Hand assistance card

Surrey County Council has worked alongside Brighton and Hove Council and other key stakeholders to produce the Helping Hand assistance card. The card is helpful for people with hidden disabilities and holds a brief written instruction that can be shown to the driver when boarding the bus.

People can apply for a Helping Hand assistance card online by visiting www.buses.co.uk/helpinghand

Alternatively, you can contact:

- **Telephone:** 01273 886200
- **Textphone (via Relay UK):** 18001 01273 886200
- **Text (SMS):** 07583 051915 (for the deaf or hard of hearing)
- **Email:** info@buses.co.uk

Trains

There are several rail cards available that can enable people to receive a 1/3 off eligible journeys. The card is for one year and can be renewed annually. To find out what card you are eligible for, more information is available online at trainline. Please note that there may be a charge for the card.

For further information, please visit:

www.thetrainline.com/trains/great-britain/railcards
