

11-17 Aarons Hill, Godalming
Statement Of Reasons For Proposing To Make The Traffic Regulation Order

Cala Homes have undertaken highway works comprising alterations to an existing access road serving 11, 13, 15 & 17 Aarons' Hill, to facilitate construction of their proposed site access to a new residential development.

The TRO is required to prohibit motor vehicles from entering the existing access road serving 11, 13, 15 & 17 (except for access to these properties). This will ensure vehicles associated with the new development only access the development via the dedicated new site access, and not via the existing access road serving 11, 13, 15 & 17.
