

Church Road/Wolsey Road Raised Table Statement of Reasons

This proposal is to install a new raised junction table on Church Road at its junction with Wolsey Road to enhance the existing pedestrian route in the area and improve pedestrian safety.

Reasons

To provide alternative and healthier options to cars for local travel especially to local schools.

The proposed road table will upgrade the pedestrian facilities and improve the safety of crossing Wolsey Road. The safety of pedestrians will be improved by encouraging the drivers to reduce further the vehicular speed when crossing over the raised table. The new levels will also provide a milder gradient for the crossing users, and it will be especially beneficial for the disabled people moving along London Road.

Junction improvement at Church Road / Wolsey Road to reduce carriageway width and construction of raised table to decrease traffic speed and enhance pedestrian safety (particularly children)
