

STATEMENT OF REASONS FOR PROPOSING ROAD TABLES ON A CERTAIN LENGTH OF THE C14 CLAY LANE, JACOBS WELL

During the last financial year there have been a number of additional new requests for the introduction of road tables in certain roads of which one was on Clay Lane. As a result of an Infrastructure Delivery and Transportation Working Group meeting, held in March 2021, it was agreed to include this traffic calming measure in the current road safety schemes programme. Over several years, there have been several road traffic collisions on Clay Lane in the vicinity of its junctions with Jacobs Well Road and Blanchards Hill. SCC officers visited the site to investigate and discussed the issue with the police. Local residents and the County Councillor requested that traffic calming measures are considered on a section of Clay Lane. Drivers have difficulty exiting from Jacobs Well Road onto Clay Lane. The installation of road tables will reduce the speed of vehicles in the vicinity of the junctions and help drivers to exit Jacobs Well Road onto Clay Lane.
