

Statement of reasons

Feltham Hill Road - Raised Full Width Road Table

Provision of the table with uncontrolled pedestrian crossings in Feltham Hill Road will improve accessibility for pedestrians crossing the road.

The roads at this location are regularly crossed by pedestrians on their journey to Echelford Primary School.

The road table will encourage lower vehicle speeds.

Provision of this facility would provide improved safety for pedestrians crossing the road at this location.

Provision of improved crossings could result in a modal shift from car to pedestrian travel.
