

Mustard Mill Road, Staines

Police colleagues have reported continued Anti-Social Behaviour occurrences within Mustard Mill Road, including poor driver behaviour and speeding.

Police have recorded vehicle speeds along Mustard Mill Road of upto 80mph, with 85th percentile speeds recorded as 41mph (Mustard Mill Road is subject to a 30mph speed limit). Also drivers have been observed to 'drift' around the bend near McDonalds (Location A Below) at speed as well as perform high-speed U-turn in the service bay to the south (Location B). Northbound drivers have also been observed to contravene the Keep Left sign and enter the McDonalds car park by passing to the right of the central island (Location C). See image 1 below.

U-turn manoeuvres have also been witnessed when drivers wish to access McDonalds, image 2 below.

To counter the excess speed of vehicles, as well as the deliberate vehicle 'drifting' and passing to the wrong side of the central reserve island and to deter U-turn manoeuvres, the Safety Engineering Team propose to install features to improve the safety of pedestrians at the existing controlled crossing lining Two Rivers shopping centre car parks, prevent wrongful entry to McDonalds and reduce speeds.

The proposals are shown below. The measures consist of providing three raised tables with associated pedestrian crossing facilities, extending the central island to the south to prevent right turns to McDonalds, installing a No U-turn sign (which requires a Traffic Regulation Order) and formalising the existing bus stop by providing Clearway markings (requiring a formal notice).

The design for the above has been completed, funding secured for 2023/24. It is hoped delivery of the scheme will also be within 2023/24 subject to agreement and appropriate approvals.
