

SURREY COUNTY COUNCIL
Zebra Crossing – The Avenue, Lower Sunbury
Traffic Calming – The Avenue, Lower Sunbury
STATEMENT OF REASONS

The zebra crossing is intended to aid the movement of pedestrians to and from the school over the D6327 The Avenue, so as to promote the use of alternative modes to the private car and alleviate traffic congestion around the school.

The location of the zebra crossing has been chosen to serve those children living south of the school that would travel via The Avenue and beyond. This includes a large proportion of the school catchment.

Traffic calming measures in the form of road cushions are proposed to support the zebra crossing on both the south and north approach on The Avenue. It is believed the introduction of road cushions will help reduce vehicle speeds as they approach the junction with Manor Lane and will benefit all road users using this route.
