

ENVIRONMENTAL IMPROVEMENT WORKS
PROPOSED RAISED TABLE - DEEPCUT BRIDGE ROAD
STATEMENT OF REASONS

The Environmental Improvement works in Deepcut is a highway improvement scheme on Deepcut Bridge Road. The purpose of the scheme is to improve conditions for pedestrians, cyclists and motorists and to provide an overall better quality built environment.

A raised table is proposed to be implemented north of the junction with Brunswick Road, in close vicinity to the "ANGSt" access. The implementation of the raised table will allow level access for pedestrians and cyclists. The raised table should also result in vehicles travelling at lower speeds on this stretch of road. The introduction of the raised table has been assessed and agreed with Surrey Police and Surrey County Councils Road Safety team.
